

# Lean Six Sigma White Belt

## What is Lean Six Sigma White Belt?

**GO Productivity's Lean Six Sigma White Belt** familiarizes your employees with the principles behind productivity improvement, Lean Six Sigma, and gives you a base from which to move forward as you increase efficiency across every part of your operations.

**Lean Six Sigma White Belt** is a workshop in which everyone in your company, from frontline staff to senior executives, can participate and gain skills to start improving productivity almost immediately. It will help with team buy-in and engagement for improvements and innovations.

**Lean Six Sigma White Belt** is geared toward progressive mid-size businesses looking to learn more about Lean Six Sigma and looking to prepare their teams for change.

## What You Will Learn

**Lean Six Sigma White Belt** introduces operational productivity improvement through Lean Six Sigma using an interactive approach. You will see the principles and benefits at work through a hands-on simulation designed to be fun and informative.

The workshop covers:

- Basic principles of Lean, Six Sigma, and integrated Lean Six Sigma
- Simulation of a process before and after implementing these principles, including financial comparisons
- Success stories of organizations using Lean Six Sigma
- Potential benefits your company can expect to gain
- Brainstorming the potential at your company and a roadmap to start your implementation journey.

After the workshop, most companies find employees are ready and willing to pursue Lean Six Sigma operational improvements, and they use the built momentum and begin forming the team that drives improvement.

## Who Should Attend

**Lean Six Sigma White Belt** is intended for:

- Everyone in your company, from frontline staff to senior executives
- Team members who support process improvement projects or Lean Six Sigma Green Belt or Black Belt practitioners within your organization
- Individuals considering future Yellow Belt, Green Belt, or Black Belt training
- Individuals wanting to gain additional skills and resources for productivity improvement

## Mode of Delivery

Workshop duration: **4 hours**

**In-person delivery only.** Due to its interactive nature and the hands-on simulation, this workshop is not available via on-line delivery.

The workshop can be delivered at your company, at a conference or meeting, or at GO Productivity's training room. Contact us for details.
