

Lean Six Sigma Yellow Belt

About the Program

GO Productivity's Lean Six Sigma Yellow Belt training and certification is for companies and individuals who are interested in understanding the concepts and practical applications of Lean Six Sigma and process improvement.

What You Will Learn

Participants will be trained in Lean Six Sigma principles up to the Yellow Belt skills level.

You will receive Lean Six Sigma knowledge, materials, and templates in order to gain a better understanding and improved capabilities to tackle productivity improvement in your workplace.

Why We're Different

Our materials are based on the methodology used by The George Group (acquired by Accenture in 2007). Michael George is generally credited with organizing the Lean Six Sigma methodology beginning with his 2002 book titled *Lean Six Sigma: Combining Six Sigma with Lean Speed*.

GO Productivity's Lean Six Sigma Yellow Belt gives you a blend of both methods, ensuring you have the skills and tools you'll need to sustain your productivity improvements.

Who Should Attend

Lean Six Sigma Yellow Belt is intended for:

- Team members of existing Lean Six Sigma Green Belt or Black Belt practitioners within your organization
- Individuals considering the Green Belt or Black Belt training in the future
- Individuals wanting to gain additional skills and resources for productivity improvement

Mode of Delivery

This course comprises 24 hours of interactive classroom training, spread over three days.

Classes run from 8.30 am to 5:00 pm each training day.
